Market evolutions and investment trends set new standards in the definition of operating partners who need to meet the specific needs of each client with flexibility, updated management tools and with the utmost care.

We believe that such confrontation on a European level will be of great use by challenging, increasing and enriching the skills, resources and expertise of our group in the international real estate management sector.

ExpoReal Munich 2008, which is rapidly approaching and in which we will participate alongside WT Partnership, will be a great opportunity to meet and present our new projects together with new management tools we have implemented within our structure.

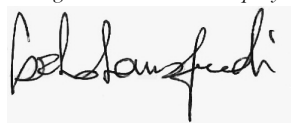

Among the above: the introduction on the market of a new company belonging to Gruppo Arcotecnica – WT Partnership: entirely dedicated and specialized in the management of Plants & Systems/Engineering of assets, the Partner and Managing Director of which is our colleague Ing.Massimiliano Caruso.

Should you require any further information or assistance, please do not hesitate to contact Ms.Tatiana Guzzone who is in charge of our International Relations Dept at: Tatiana.Guzzone@g-arcotecnica.com +39.02.006.211.01
